Tool Management Services

_WALTER TOOLSTATION S-LINE

**Compact & economical –
tool store with system.**

The face of modern tool management.

GENERAL ADVANTAGES

- Reduced tool stock
- Production equipment available at all times
- Fewer production downtimes
- No unnecessary redundant or non-standard stock laying around
- Shorter travel distances from store to machine

INDIVIDUAL. AVAILABLE. TRANSPARENT.

Toolstation, Walter's tool dispensing system, puts all the tools that you require for a particular user group at your disposal, with the utmost reliability, whenever you need them. Not only this, but it can be configured to your own individual requirements and is transparent, because all the relevant data can be retrieved from anywhere in the world via your web browser:

- Usage data
- Tool stock data
- Purchase requisitions

If required, all Walter Toolstation tool dispensing systems can be linked and controlled centrally. In production, the cabinets can be operated in different positions if need be. This boosts efficiency as it minimises travel. Further benefits of the tool dispensing systems include their functional design and the maintenance-friendly hardware and software.

_SOFTWARE

Transparent support, easy management:

HIGHLY EFFICIENT STORAGE ORGANISATION – FAST, RELIABLE AND IN REAL TIME

Web-based¹ administration interface, Admin-Portal, supports you in managing user rights, the material master data for your tools and measuring equipment, your minimum stock levels, and much more.

The easy-to-use touchscreens and intuitive Shop Floor Portal interface make the dispensing machines themselves a real asset.

- No need of local IT resources
- Integrated backup and updates
- High safety routines
- Standardized system integration

- Customer server infrastructure
- Customer backup responsibility
- On-site system integration
